An accident occurred on Sunday night last which might have proved very serious in its results. A coal-lamp, sitting on a table in the house of Sally Biggs on East street, suddenly exploded, lighting the curtains, carpet, etc., and but for the prompt and timely action of a passer-by, who heard the alarm given by the hiss of the house, there would have been another large fire to chronicle, as the building is a frame one and is immediately adjoined by another frame. Fortunately Miss Biggs was not near the lamp when it exploded. Every day we hear of such accidents and people can be too careful with their lamps.

It is with the deepest feelings of regret that we announce the death of Louisa, wife of H. W. Kahler. She was married but little over a year, when she came among us an entire stranger, and in a short time, by her quiet and refined manners and lady-like bearing, made for herself a host of warm friends especially among the ladies of the Lutheran church of which she was a consistent and devoted member. Two weeks after her marriage she arrived in this place, she took very sick and was bed-fast up to the time of her death, which occurred on Thursday evening of last week about half past eight o'clock. Her disease was pronounced hectic consumption. Mrs. Kahler was 28 years of age. The funeral services were held at the house and were conducted by Rev. O. D. S. Marley, from whence her remains were taken to Hughesville, Lecompton county, where she formerly resided, and interred on Sunday. Her sudden death will be deplored by all who knew her.

His store is large and nicely furnished, and their stock is extensive. Though yet a young man, Mr. Sands by close attention to business has become one of the prominent citizens of his town, and has acquired considerable property as the result of his own efforts. His friends here will be pleased to see him whenever he can spare the time to visit his native place.

SUGARLOAF ITEMS.

Times are prosperous here at present. Three steam saw mills are working successfully and not far apart. The mill formerly run by Mr. Hess is conducted at present by Mr. McHenry and is doing a very thriving business. The mill is placed on lands of Messrs. Kocher and Hess. Another mill is placed on lands of Jacob H. Fritz, owned and conducted by Mr. Carpenter, which is also doing a thriving business. These two mills, and the third, which is placed on lands of Mr. William Seward, and owned by Mr. Weller, are drawing the Sugar Mountain of its timber rapidly, yet it does not change its picturesque scenery, and even some of the spring birds have come back to visit us. The schools at present are in a prosperous condition. Rev. J. R. Finner is holding a protracted meeting at the M. E. church, partly known as the Hess church along Fishing Creek. We have had no sleighing this winter.

LITTLE JOY.

John B. Zehnder, of Catawissa, this county, an old soldier and now a retired sailor, was in town this week. The following is a synopsis of the singular career of this man, which we publish for the information of our readers:

He was mustered out April 22, 1861, for three months service in Company A, 9th regiment, which was recruited at Shamokin, Northumberland county.

September 14, 1861, he joined Company K, 4th regiment and served as Sergeant until July 1, 1864, when he was discharged on surgeon's certificate.

On the 12th of January, 1871, he shipped on the "Colorado" as a first-class fireman; was drafted for Monitor Company, which was put out of commission, and he was then put in the steamer "Sanguine," October 1st, 1875, shipped in same place and was transferred to United States steamer "Huron." Was discharged on the 13th of November, 1877, at his own request.

On March 5th, 1878, he again shipped on the "St. Louis" at League Island, Pennsylvania. Was sent to New York on receiving ship "Colorado" and drafted then to the "Monongahela" on Atlantic station. Was discharged for disability at Mayor's Island, San Francisco on the 22nd of January, 1880.

Mr. Frank Dentler has been confined to his bed for several days past. We hope he may soon be about again.

The District Committee of the Young Men's Christian Association met at Bloomsburg on the 20th for the transaction of business relating to the Association. Danville, Pottsville, Berwick and Bloom were represented. J. B. Huber, of Danville, was elected to fill the vacancy of D. A. Engle; J. K. Bittenbender was elected to fill the vacancy caused by the removal of E. H. Witman to Wilkesbarre. The committee decided to hold their annual convention at Pottsville on the 21st, 22nd and 23rd of May next.

In a great many cities next St. Patrick's day will not be celebrated by the Irish societies with the usual festivities. It has been determined to devote the money, heretofore used in commemoration of the day, to the relief of the famine in the old country. This is a good resolve and should be adopted everywhere. Every Irishman to work that day and give his wages to the poor, to the aged, to the women and children, he would be doing himself honor, and millions of dollars would thus be raised for the sufferers of the old land.

BERWICK LETTER.

EDS. COLUMBIAN:—

Rev. Synner returned from his trip to the South, looking as if he had been benefited by it.

Last Monday evening, Bishop Peck delivered a sermon in the M. E. Church. He had a large and attentive audience. Listening to his strong earnest voice, one almost forgets that the winter of life is upon him.

On Wednesday last week Rev. Evans made another couple happy—Mr. Frank D. Hurler and Miss Grace Eaton, the ceremony taking place at the home of the bride. Many beautiful presents were given them by the relatives and friends of the bride.

At the Literary Society last week, the judges after listening to a long discussion on dancing, by Dr. Sanderling, C. H. Zehnder and J. Kurtz on the affirmative, and Dr. Frass, S. B. Cresson and Frass on the negative, decided that it was an immoral amusement. The society is on its feet again and promises to be a grand success at least until the heat of the summer is upon us.

On Tuesday evening last the friends of Harry Glenn marched in a body from the house of B. F. Cripson to that of the former carrying with them packages of all sizes, which soon opened in his parlors. The occasion was his wedding. The presents ranged from the marble topped tables down to brooms, including some very fine chairs. The card on a beautiful cloth contained this "strange device" from one of the fifteen—two club and his love. The large assembly spent a few hours very pleasantly in games and listening to the charming singing of Mrs. Glenn.

Berwick, Pa., Feb. 25, '86.

Mr. John Muhlig, Pomeroy, Iowa, sends the following communication:

I have been a sufferer with Rheumatism for the last six years. I tried lots of medicines without any success. Visiting one day the store of Messrs. Wampler Bros, in Waterloo, Iowa, these gentlemen induced me to try the St. Jacob's Oil, telling me that it had a record as a very effective remedy. I bought a bottle and used it regularly according to directions, and was relieved of the ailment from which I had suffered for six long years.

ASSURANCE ITEMS.

Your reporter had the pleasure of having a conversation about a year ago with one of the first settlers in this country, John Catter, who now resides in the State of Ohio. He told me he felt the first tree where Ashbury now stands.

Ashbury is composed of about eighteen families and about sixty-eight souls all told. We have preaching every two weeks at ten o'clock, a. m., and Sabbath school every Sabbath morning at nine o'clock, a. m.

Albert Ammerman is one of the oldest settlers now living in the place. He is about 77 years old and smart for one of his age. He was elected Justice of the Peace in 1850 and served the people in that capacity for twenty-five years. Mr. Ammerman's son, one who loved him and was elected in 1875 and re-elected again this spring. Mr. Ellis Lemons was re-elected constable.

The pale horse and his rider have passed through this place and took from our midst Dr. W. M. Sullivan a little girl. She is now released from all her sufferings and enjoying the company of redeemed ones, though missed very much by her afflicted parents.

HOW DEAR PAPER AFFECTS THE COUNTRY PRESS.

Something has got to be done to stop the rise in paper or the asylums for the poor throughout the country will soon be filled with newspaper publishers.—Wilkes (Minn.) Republican.

There is a serious side to this facetious remark. The average country weekly newspaper has, for the past two years, consumed from \$1,000 to \$1,500 worth of printing paper per year for its edition. This paper in 1880 is costing the publisher \$1,500 where it was last year \$1,000, and \$2,250 against \$1,500 in 1879.

In 1878, this increase of expense of \$500 to \$750 a year seems like a small item in a big city daily newspaper establishment, but in a very remote amount to a village weekly journal, of which there are some 5,000 published in the United States. It is a large enough sum to cover the question of profit and loss in some thousands of cases. Add to the expense of the average country weekly \$750 for white paper and the publisher not only will not make a dollar for his year's labor, but will be debilitated in his business.

In so that at advanced rates of 50 per cent. in price is really no laughable matter with the country editor. It places him in the dilemma: if he raises his subscription price 75 cents or \$1 a year to meet and cover the advance of the paper combination in print, he will lose a third or half of his subscribers. The "Stop my paper" will pour in on him as thick and fast, comparatively, as they did on a certain publisher not a thousand miles from here who raised his price but one cent a copy.

If he tries the other horn of the dilemma, and reduces the size of his sheet to correspond with the advancement of paper, he will cripple his advertising space, and deprive his readers of a material portion of the local and other news of the day, and soon ruin himself. This is the "straight between two" in which the newspaperman's combination has placed the country newspaper publishers. They are being ground to powder between the upper and nether mill of fixed subscription prices and "protected" monopoly combination on paper.

Congress has made a law which enables the papermakers to fleece the country publishers, the latter are appealing to Congress to repeal it. They want to do no injustice to the papermakers, and to this end ask Congress to remove the taxes on chemicals and pulp, whereby the manufacturers can make cheaper paper. What objection can the high tariff have to this proposition? Why should they oppose removing the duties on soda ash and wood and stone pulp? And after those taxes are removed and the cost of paper making essentially cheapened why should not the tax on imported paper also be repealed? This is what the country press ask at the hands of Congress, and it is reasonable and right and should be granted.—Cleveland Paper.

The Question of Polygamy.

Congress at last seems disposed to pay some attention to the question of Polygamy. A bill has been reported from the Judiciary Committee which has been aimed directly at the practices of the Mormons in Utah. It imposes a fine of not more than five dollars and an imprisonment of not over five years upon every person who having a husband or wife living, thereafter marries another. This provision does not extend to any person whose husband or wife is absent for five successive years, and is not to be living, nor to any person whose lawful marriage has been dissolved by a decree of a competent court. It provides that in any case of prosecution for bigamy any person drawn as a jurymen may be challenged if he is or has been living in the practice of bigamy or polygamy, or if he believes it morally, religiously or legally right for a man to have more than one living and undivorced
